

LD9 MVD Proof Checklist

Final Documentation Package for the Bank Marketing Subscription Prediction Project

Prepared for: Ruturaj Mokashi

This document proves that the required Learning Day 9 MVD tasks were completed and shows where the evidence was produced.

Level	Requirement / task	Completed in	Status
Beginner	Decision Tree vs Random Forest train/test comparison	Notebook 3	Completed
Beginner	Feature importance comparison for both models	Notebook 3	Completed
Beginner	n_estimators 10 to 500 accuracy curve and stagnation point	Notebook 3	Completed
Intermediate	StackingClassifier with LR meta-model	Notebook 4	Completed
Intermediate	5-fold CV comparison of base learners vs stacker	Notebook 4	Completed
Intermediate	Random Forest meta-model swap and model diversity	Notebook 4	Completed
Expert	Manual 5-fold OOF stacking	Notebook 5	Completed
Expert	Blending 70/30 and stability comparison	Notebook 5	Completed
Expert	Three-layer stacking evaluation	Notebook 6	Completed
Additional coverage	Gradient Boosting practical connection to theory	Notebook 6	Completed

Conclusion: all Beginner, Intermediate, and Expert MVD tasks were covered. Additional course coverage, including Gradient Boosting, was also integrated.
